EDUCATION

Virtual University Of Pakistan

Bachelor's Degree in Computer Sciences
2017- 2021

PROFESSIONAL EXPERIENCE

Software Developer

Implies Solutions | 2023 - Present

- Lead development for multiple ERP modules including HR, school management, attendance, and grading.
- Designed and implemented features such as automated payroll, result generation, and student performance tracking.
- Collaborated with cross-functional teams to integrate real-time dashboards and reporting

Software Developer

Gluon ERP | 2023

- Contributed to the development of HR and ERP systems, focusing on employee records, attendance, and performance evaluation.
- Maintained and enhanced existing modules; optimized SQL queries and front-end performance.
- Built and deployed modules using ASP.NET, Angular, and SQL Server.

Software Developer

Softconsults | 2021 - 2023

- Developed full-stack applications for school and company ERP systems.
- Designed and maintained core modules for grade management, student attendance, and school fees.

PROJECTS

Title: NEMT Dispatching System

Tech: ASP.NET Core, Angular, SQL Server, SignalR, Google Maps API

- Created a real-time dispatching platform for non-emergency medical transport services
- Implemented trip scheduling, driver assignment, route optimization, and tracking
- Integrated live status updates using SignalR and map-based trip views
- Automated notifications and billing reports for Medicaid and private providers

Title: Comprehensive HR Management System with Integrated Features

Tech: ASP.NET Core, Angular, SQL Server, SSMS

- Developed a full-featured HR platform with modules for attendance, payroll, leave, and performance management
- Integrated employee self-service portal and automated workflows for HR processes
- Enabled real-time dashboards and role-based access for HR/admin teams
- Improved operational efficiency and reduced manual HR tasks by 60%

Title: Advanced School Learning Management System (LMS)

Tech: .NET Core, Angular, SQL Server

- Built modules for student data, attendance, exams, grade tracking, and timetable management
- Designed custom dashboards for students, teachers, and administrators
- Enabled real-time result generation and analytics reporting
- Streamlined communication and improved academic transparency
