Experience

BitWords.Inc   **Full Stack Developer**   **Prasent**

- I work at Bitwors.inc, where I specialize in building marketing-focused websites. My role
- involves creating visually appealing, responsive, and user-friendly designs. I help brands
- establish a strong online presence to attract and retain customers. Using modern web
- technologies, I ensure optimal performance and SEO integration. Our goal is to deliver impactful
- digital experiences that drive business growth.

E-KHAT Arfa Software Technology Park   **Assistant Software Engineer**   **September 2024- 2025**

- Working as an Assistant Software Engineer at E Khata ERP, contributing to the development and
- optimization of enterprise solutions. Responsible for designing, developing, and maintaining scalable
- web applications using modern technologies. Collaborate with cross-functional teams to enhance
- system performance and ensure seamless user experience. Implement best coding practices to improve
- application efficiency and maintainability. Actively involved in troubleshooting, debugging, and deploying
- software updates to meet business requirements.

Connect Solution Lahore
